ARCHITECT INTELLIGENCE

Dear Valued Innodisk Client,

We are pleased to invite you to Embedded World 2025, the leading trade fair for embedded systems technologies, which will take place March 11-13, 2025, in Nuremberg, Germany.

As we **ARCHITECT INTELLIGENCE**, Innodisk proudly presents our innovative "Building Blocks" approach - a comprehensive ecosystem of intelligent components designed to create powerful, customized solutions for your industry needs.

Visit our booth to discover how Innodisk can transform your industrial applications through seamless integration and scalable AI solutions. Our experts will demonstrate how these components can be assembled to meet your organization's specific requirements.

Where to find us?

Date: March 11-13

Booth Number: Hall 1 / Stand 1-370

Venue: Nuremberg Exhibition Centre
